

Project Design Phase-I Solution Architecture

Date	31 October 2022
Team ID	PNT2022TMID43880
Project Name	Gas Leakage Monitoring and Alerting System

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- It sends messages to user that the leakage of gas is detected.
- It alerts user by buzzing an alarm sound.
